PROJECTS

React.js E-Commerce Web Application

Tech: React.js, JavaScript, HTML5, CSS3, Bootstrap, JSON Server / Fake API, LocalStorage

Description: Built a fully functional e-commerce web application using React.js and JavaScript, allowing users to browse products, view details, add items to the cart, and complete purchases. Developed a responsive and clean UI with Bootstrap, implemented client-side routing with React Router, and created dynamic components for real-time updates. Integrated LocalStorage for persistent cart data and optimized component structure for smooth user experience.

MERN Stack Expense Tracker Web Application

Tech: React.js, Node.js, Express.js, Bootstrap

Description: Built a full-stack Expense Tracker web application using the MERN stack, enabling users to manage income and expenses efficiently. Implemented secure user authentication using JWT, allowing users to register, login, and maintain personalized financial data.

Developed RESTful APIs using Node.js and Express.js for handling transactions, and integrated MongoDB for data storage.

Designed a responsive and user-friendly interface with React.js and Bootstrap.
